Sumeya Hassen

SOFTWARE DEVELOPER

Enthusiastic and detail-oriented Frontend Developer with a strong foundation in web and mobile development, currently pursuing a BSc in Software Engineering at Bahir Dar Institute of Technology. Skilled in React.js, Flutter, Tailwind CSS, and JavaScript, with hands-on experience from internships at Kuraz Tech and Nile Tech, where I developed real-world web applications and full-stack projects. A fast learner with a passion for creating meaningful tech solutions, especially in education, sustainability, and community impact. Always eager to grow, collaborate, and contribute to innovative, user-friendly digital experiences.

ABOUT ME

I am a passionate and motivated Frontend Developer with a growing skill set in mobile and web development, currently pursuing a degree in Software Engineering at Bahir Dar Institute of Technology. I am gaining real-world experience through a Frontend Development Internship at Kuraz Tech, where I focus on building responsive and user-centered applications.
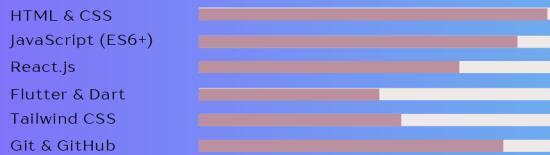

I specialize in technologies like React.js, Flutter, Tailwind CSS, and JavaScript, and I am expanding into backend tools like Node.js, Firebase, and MongoDB. I've worked on various creative projects, including a mobile banking app, an educational support platform, and a sustainability innovation that transforms used sanitary pads into eco-friendly fertilizer

With strong problem-solving skills, a collaborative mindset, and a hunger to learn, I aim to create meaningful solutions that support education, sustainability, and accessibility in tech. I'm always looking for new opportunities to grow and make a positive impact through technology.

MY MISSION

My mission is to empower communities through technology by building innovative, accessible, and user-friendly digital solutions. I aim to use my skills in frontend and mobile development to solve real-world problems in education, financial inclusion, and sustainability. By continuously learning and collaborating with others, I strive to grow as a developer who not only writes code but also creates positive impact in people's lives.
.

SKILLS

HTML & CSS	
JavaScript (ES6+)	
React.js	
Flutter & Dart	
Tailwind CSS	
Git & GitHub	

EXPERIENCE

🌐 **Frontend Development Intern**
- Kuraz Tech — June 2025 – Present
- Working on real-world frontend projects using React.js, Tailwind CSS, and JavaScript.
- Contributed to building clean, responsive UI components and improving user experience.
- Collaborated in a team using Git, Agile, and code review practices.
- 🏫 Tech Talent Trainee

Power Learn Africa (PLA) — March 2025 – June 2025
- Completed a structured training in full-stack development, including HTML, CSS, JavaScript, Python, and Git.
- Built educational mini-projects focused on social impact and community tech solutions.
- Developed strong remote collaboration and project presentation skills.

🖥 **Full-Stack Web Developer Intern**
- Nile Tech, Bahir Dar — January 2025 – March 2025
- Designed and developed a full-stack company website for Nile Tech using HTML, CSS, JavaScript, and PHP with MySQL database integration.
- Implemented features like service listings, contact forms, and admin dashboard.
- Gained hands-on experience in deploying and managing a live project from backend to frontend.

EDUCATION

- Bahir Dar Institute of Technology, Bahir Dar University
- 📍 Bahir Dar, Ethiopia
- Bachelor of Science in Software Engineering
- 🎓 Expected Graduation: 2026
- Specialized in frontend and mobile development
- Completed academic projects in distributed systems, databases, AI, cloud computing, and software architecture
- Active in innovation projects and tech communities
-
